Table of Contents

Summary.....	9
1. Introduction.....	13
1.1 Flood risk.....	14
1.2 Flood risk management	14
1.3 River flood forecasting.....	16
1.3.1 Precipitation forecasting	16
1.3.2 Streamflow forecasting	17
1.4 Forecast verification	18
1.5 Forecasting flood impacts.....	19
1.6 Forecast value and forecast-based actions.....	20
1.7 Goal and research questions	22
1.8 Outline of this thesis	22
2. A framework for comparing permanent and forecast-based flood risk-reduction strategies.....	25
2.1 Introduction	26
2.2 Data and study design.....	28
2.2.1 Case study area	30
2.2.2 River water level and potential damage.....	30
2.2.3 Forecast model.....	31
2.2.4 Flood risk-reduction measures.....	33
2.2.5 Temporary measures against frequent low-impact and against rare high-impact events	38
2.2.6 Background and provided protection levels	38
2.3 Results	40
2.3.1 Floods and model evaluation	40
2.3.2 Permanent versus temporary measures for Decision Rationale 1.....	42
2.3.3 Permanent versus temporary measures for Decision Rationale 2.....	46
2.3.4 Frequent low-impact and rare high-impact floods.....	47
2.4 Discussion.....	48
2.5 Conclusions	50
3. Evaluation of a global flood prediction system in Peru.....	53
3.1 Introduction	54
3.2 Data and methods	56
3.2.1 Study area.....	56
3.2.2 Reported floods.....	58
3.2.3 Model framework.....	59
3.2.4 Evaluation of GloFAS.....	60
3.3 Results	64
3.3.1 Discharge validation using gauging stations.....	64
3.3.2 Forecasted versus simulated discharge	66
3.3.3 Skill in forecasting observed events	70

3.4	Discussion and Conclusions	73
4.	The influence of antecedent conditions on flood risk in sub-Saharan Africa	77
4.1	Introduction	78
4.2	Methodology	80
4.2.1	Datasets	80
4.2.2	Analysis	83
4.3	Results	86
4.3.1	Floods in sub-Saharan Africa	86
4.3.2	Weather scale	86
4.3.3	Seasonal scale	88
4.3.4	Combination of weather- and seasonal scale	90
4.4	Discussion	91
4.5	Conclusions	94
5.	Assessing time, cost and quality trade-offs in forecast-based action for floods	97
5.1	Introduction	98
5.2	Methods: Valuation of an EWEAS	100
5.2.1	Forecast model description: GloFAS	101
5.2.2	Thresholds for triggering action and model assessment	102
5.2.3	Forecast-based actions	104
5.2.4	Relative economic value of EWEAS	104
5.3	Configuration of the EWEAS	109
5.4	Results	113
5.4.1	Forecast skill in capturing flood events	113
5.4.2	Value of the one-stage EWEAS	115
5.4.3	Value of the two-stage EWEAS	119
5.5	Discussion and recommendations	121
5.6	Conclusions	124
6.	Synthesis and Outlook	125
6.1	Introduction	126
6.2	Overview of the main findings	126
6.3	Outlook on future research	131
	References	133
	Appendix A	153
	Appendix B	161
	Appendix C	167
	Summary in Dutch	173
	List of publications	177
	Acknowledgements	179
